## CONSOLIDATED INDEPENDENT SCHOOL DISTRICT

### School district to test rapid communication system on Oct. 29

The safety of our students and staff in Goose Creek CISD is very important to us. To continue to maintain a safe environment for student learning, it is necessary that we practice our emergency and crisis response plans by having drills to test our procedures. We will be conducting a test from 5 to 8 p.m. on Thursday, October 29, of our rapid communication system called IRIS (Immediate Response Information System). This system delivers emergency messages to parents and district staff members individually by the communication method(s) of your personal choosing.

If Goose Creek schools need to close early due to weather, for example, this system would notify you by your choice of home phone, cell phone, or email. In addition, individual campuses may use the IRIS system to keep you up to date on important school wide information or changes relating to groups in which your child participates. If you do not get a call on your home telephone, cell phone, or email message from the district on the night of October 29, please contact your child's school to update your contact information. If you have questions regarding the IRIS test or other safety concerns, please contact your school office.
