Walker holds 2nd annual Super Science Saturday

Victoria Walker Elementary School recently held its second "Rockin' Super Science Saturday.

Students began their day with breakfast, and then rotate to five science domains throughout the day followed by an awards ceremony and pizza celebration.

Of the five stations, NASA presented an astronaut suit where students learned about various aspects of the suit and special purposes of mechanisms.

Exxon BOP presented a lab on how fossil fuels are created, found and used.

Exxon also presented an additional lab where students experimented with polymers and also made the popular product Gak! Lee College hosted a lab about digestion and enzymes where students used potato juice and peroxide to simulate the digestion that takes place in the human body.

Walker science teacher Mrs. Smith presented a lesson about herbivores and carnivores and students looked at different animal skeletons from Texas Parks and Wildlife's traveling kit to classify accordingly. Lastly, students were presented with a 360-degree Discovery Dome where they learned about our fantastic moon.
