Informational Meetings Presented By Student Resource USA

You are invited to join a voluntary informational meeting to learn about special Student Loan Forgiveness programs and TEACH Grants that are available to help fund your educational goals.

Student Resource USA participates with school districts throughout the U.S. in an effort to allocate as much money as possible to faculties and staff for continuing education.

At the session, Student Resource USA inform teachers of \$3M in funds made possible through the U.S. Department of Labor.

They also provide information about Title One Loan Forgiveness, which is a great opportunity for teachers to reduce their educational loan obligations by \$5,000-\$17,500.

And in addition to these, the federal government has a new program called the "TEACH Grant", which may help teachers save \$4,000 per year on their graduate studies. Student Resource USA also provides information regarding programs that lead to National Board Certification.

This information will be valuable to everyone, whether they are currently attending a university or would like to begin attending a local or accredited online university.

The presenter will have information on hundreds of programs designed to help teachers pursue their educational goals, some with no out-of-pocket expenses using available scholarships and Loan Forgiveness.

Student Resource USA is compensated by the US Department of Labor and multiple universities for these seminars, so there are no charges to schools or teachers for any of their services.

Several meetings have been scheduled at various campuses in the district. You are free to attend the scheduled meeting at your campus or the last session at the Administration Building on March 3, 2010 from 3:45 p.m. in Texas Room A.
