

GOOSE CREEK

CONSOLIDATED INDEPENDENT SCHOOL DISTRICT

Stallworth Stadium parking lot work under way

Goose Creek Consolidated Independent School District has embarked on a capital improvement project on the south and east side of Stallworth Stadium to accommodate bus parking for the district's Transportation Department.

District contractors will be reworking and cement stabilizing 22,340 sq. ft. of base and performing an asphalt overlay on the stadium's south side. On the east side (visitor's side), contractors will be repairing and cement stabilizing approximately 25,000 sq. ft. of base and performing an asphalt overlay of 89,000 sq. ft. This work includes the two entrances to the east parking lot and the southeast drive to Sjolander Road.

The project is necessary to provide a safe and usable parking area for 100 to 120 school buses, drivers and monitor cars, the Transportation Department staff, and stadium patrons.

The reason for utilizing the stadium for bus parking is to accommodate the bus parking spaces lost at the Lee Drive facility because of an environmental remediation project completed at the old Carver Elementary site.

It is anticipated that the repairs will give the district another three to five years of use without the need to upgrade the stadium parking lot. The work is scheduled to be completed by Jan. 31.

During the construction phase, the district will still park buses at the stadium. After the improvements are complete, the district will attempt to avoid the Archer and Sjolander intersection unless buses need to go north or need to go into the Cedar Bayou Park subdivision.
