Comprehensive Needs Assessment

Demographics

Demographics Summary

ASE currently serves deaf education students, ECSE through 5th-grade students. We serve students in Special Education, Bilingual, Dual 2-way, Dual 1-way and general education settings. Next year, we will no longer service life skills and PPCD and we will add 3-year-old ECSE and deaf ED. The campus has a diverse student population serving 630 students as a Title 1 campus.

Demographics Strengths

Our campus has a counselor and CYS to help families in crisis. We also have a CYS and CS3 to help close the gap between families and campus. The SST committee meets every Monday to discuss family and student needs. We have 2.5 teaching and learning coaches to help teachers tailor instructions to meet the needs of our students. Our At-Risk numbers increased 2% from last year.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Our campus attendance rate has decreased to 94.8%. The district expectation is 97%. **Root Cause:** Ashbel Smith has seen a decrease in attendance due to low online participation, increase quantities and parent/community reactions to the pandemic.

Student Learning

Student Learning Summary

The campus utilizes several methods of assessment to gather data on student progress, including Universal Screeners, CBAs, CFAs, Benchmarks, and teacher-created exams as well as available data from state assessments.

Ashbel Smith utilizes a 45-minute block of intervention time daily for students to work on interventions, with no new content being taught. This utilizes the assistance of paraprofessionals when available to help create smaller groups of students in classrooms.

Student Learning Strengths

A focus on Reading has come from the state, with the implementation of Reading Academies. Our Kindergarten and 1st-grade teachers are the first to have attended; next year's focus will be on 2nd and 3rd-grade reading. We utilize consultant Gretchen Childs to help grow teachers in PK-2nd with literacy topics, modeled lessons, etc.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Ashbel Smith wants to continue to look at ways we can meet the needs of all students, whether it be enrichment or interventions. Early interventions to identify the needs of struggling kids will be crucial to help plan ways to meet the needs of students. **Root Cause:** Clearer definitions of who is in charge of Tier 2 and 3 interventions, as well as training on how to best implement guided reading.

School Processes & Programs

School Processes & Programs Summary

Ashbel Smith has many programs and processes that positively impact the areas of curriculum and instruction. These include: Full-day Pre-K; the Benchmark and Fountas and Pinnell curriculum K-5; Pre-K STEMScopes curriculum for science and the K-5 Greg Tang Math program.

This year we also have several beneficial technology programs that were used, including the Education Galaxy programs for Math, Reading, and Science for 2-5; Waterford Math and Reading Pre K-2; and Imagine Learning Espanol.

This year was a unique situation with virtual students. A variety of new processes and procedures were put in place and evolved over the course of the year. Teachers were forced to be creative on how to do the “norm” due to the challenges. The teachers embraced technology quickly with short training sessions.

School Processes & Programs Strengths

The strengths of our campus processes and programs include: a regular PLC process that evolves to meet the needs of our students and teachers and focuses on planning rigorous and relevant instruction; RTI meetings that help provide necessary accommodations for students; the data from CBAs, CFAs, SFAs, and Benchmark is used consistently to track progress and drive instruction; and weekly faculty meetings that keep the staff informed.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: Inconsistency of staff members' abilities with new technology. The beginning of the year was very overwhelming for all teachers and especially so for teachers with less technology proficiency. **Root Cause:** Most of the technology training was geared toward teachers who had medium technology proficiency. A good portion of the staff did not have medium technology proficiency and need to be scaffolded to meet the needs of all members.

Problem Statement 2: Also, school-wide need for consistency of collaboration between teachers about student progress and types of interventions/enrichment. **Root Cause:** The root cause is teachers have a variety of skill sets and training on interventions/enrichment and have different views on "what is collaboration" about student progress.

Perceptions

Perceptions Summary

The perceptions of our campus from faculty, students, and parents are positive in the areas of community and school relationships, behavior, and support. Focus areas to include for the 2022-2023 school year include attendance, increased safety measures, and continuing to re-grow family engagement and student extra-curricular opportunities.

Perceptions Strengths

Ashbel Smith is showing great strength in communication, relationship building, tutoring opportunities, as well as staff and student wellness initiatives.

Focus areas for our campus include the need to improve our attendance rate, increase parent involvement and increase opportunities for students to experience extracurricular activities that connect them more to wanting to be at school.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: Parent involvement has decreased in a number of ways such as lower attendance at family nights, inactive PTO, and general volunteering on campus. **Root Cause:** The probable cause of this decrease in involvement relates directly to the COVID years and the need to rebuild after its impact.

Priority Problem Statements

Problem Statement 1: Our campus attendance rate has decreased to 94.8%. The district expectation is 97%.

Root Cause 1: Ashbel Smith has seen a decrease in attendance due to low online participation, increase quantities and parent/community reactions to the pandemic.

Problem Statement 1 Areas: Demographics

Problem Statement 2: Ashbel Smith wants to continue to look at ways we can meet the needs of all students, whether it be enrichment or interventions. Early interventions to identify the needs of struggling kids will be crucial to help plan ways to meet the needs of students.

Root Cause 2: Clearer definitions of who is in charge of Tier 2 and 3 interventions, as well as training on how to best implement guided reading.

Problem Statement 2 Areas: Student Learning
