Comprehensive Needs Assessment

Demographics

Demographics Summary

The demographics of ethnicity, economically disadvantaged and gender of students at Lamar has remained fairly consistent in the last 5 years. Our attendance rate had been increasing a little each year until this year, there has been a small drop. Lamar's mobility rate made a sharp increase this school year. SPED testing has increased over the years. The percentage of African American teachers to African American students is about equal this school year. The male teacher percentage is very low, and there is a big gap between the male teacher to male student ratio. Lamar has a lot of systems and supports in place for students, but need more consistency as well as vertical consistency for desired results. Overall enrollment has been decreasing over the years.

Demographics Strengths

The demographic strength at Lamar is the diverse population over the years.

Problem Statements Identifying Demographics Needs

Problem Statement 1: The mobility rate has increased from 13.87% in 2020-21 to 18.6% in 2021-2022. **Root Cause:** Due to the pandemic, students were less mobile as virtual learning was implemented and housing assistance was provided and more flexible.

Problem Statement 2: The male staff to student ratio is significantly different. There are 53.19% male students and only 2.17% male staff **Root Cause:** In general, the teaching profession has a disproportionate amount of males that enter the profession at the elementary level.

Student Learning

Student Learning Summary

In order to continue to increase student achievement in each of the four indices of the state accountability system, teachers and staff will continue to actively engage all students using structured activities. Time and resources will be provided for all campus teachers, including special education teachers that serve students in the general education classrooms, during long-range planning and PLC to help understand and analyze student data, to help build our scope and sequence and lessons, and help understand the specificity of the TEKS. RtI meetings will be held at least once per nine-week for every child being served in Tier II and III. Special education teachers will meet with general education teachers to discuss differentiating lessons based on the specific skills and needs of the students they serve at least twice in the school year. We will continue to focus on increasing our students' abilities to think critically by continuing active engagement and student talk and beginning to build teacher questioning while maintaining the structures we currently have in place for student success. We would also like our teachers, paraprofessionals, and daily substitutes to participate in at least one training session or PLC per nine weeks focused on these skills and will be monitored and encouraged through our participation in district and campus professional development.

Student Learning Strengths

- Teacher commitment to the continued growth of our students by 1.2 years
- RtI process in place is helping to identify students earlier
- TXKEA, TPRI, and ISIP are in place to help identify students' needs earlier
- Teachers using more technology to engage students in different activities such as Google Classroom, Pear Deck, Epic, RAZ-Kids, and STMath
- Campus paraprofessionals who are willing to help teachers and students in the classroom to be successful

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Students are struggling with critical thinking skills. **Root Cause:** Teacher need to question students in a way to intentionally facilitate students' critical thinking and allow for higher levels of student talk. The level of student engagement may be lower due to outside causes such as lack of sleep, issues at home, or too many extracurricular activities.

Problem Statement 2 (Prioritized): Campus special education scores are at least 10% lower than the district or state on STAAR in all subjects. **Root Cause:** Due to high mobility and the number of Special Education students, teachers may not identify the specific needs of special education students in order to maintain steady growth for the student.

School Processes & Programs

School Processes & Programs Summary

In order to continue to increase student achievement in each of the four indices of the state accountability system, the staff of Lamar Elementary school will work interdependently to understand the specificity of the TEKS during PLC's, team planning, and long-range planning sessions. This will allow us to create rigorous and relevant lessons that increase our students' engagement and success. In collaboration, teachers and campus coaches will differentiate instruction while using cooperative learning activities and vetted resources to help our students excel. Furthermore, we will hold our students more accountable for their own learning. They will be tracking their progress, setting goals, and discussing this with teachers and administration. RTI meetings will be held at least once per six weeks for every child being served in Tier II and III. This year we have focused on student engagement and discussion. While maintaining those skills, we want to shift the focus to student-centered learning and critical thinking. This will be monitored and encouraged through our participation in internal and instructional rounds.

School Processes & Programs Strengths

- Students' phonological awareness & phonics knowledge are growing
- Teacher questioning techniques: HOT's, pre-planned
- Teacher provided sentence stems; students answering in complete sentences
- Student engagement activities in the classroom

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): On a regular basis, our students struggle with critical thinking and strategic compliance/true engagement. While, overall, our campus reaches levels of ritual compliance, we want our students to take on accountability for their own learning. At a true engagement and strategic compliance level, our students will set success goals and be invested in their own learning. **Root Cause:** We are working at a campus and district level to try and find the root cause of our problem statement. We have tried using internal and instructional rounds to gather data and support our staff. Sometimes our teachers and students are trained in best practices, however, our high mobility rate keeps us from reaching specific goals.

Perceptions

Perceptions Summary

The discipline data indicates that the majority of office referrals are made in fourth and 5th grade. Our highest infractions are disrespect, failure to follow rules, bus misconduct and class disruption. Two buses are responsible for the majority of the referrals for bus misconduct. Interventions have been put in place, however, there is a need for adequate PBIS training for drivers. Disciplinary practices and decision making has been evaluated throughout the year (in meetings with teachers, students, counselors, parents) and during PBIS meetings where each grade level has representation. Due to campus PBIS strategies, policies are proactive. An area of growth is that we have more frequent PBIS meetings addressing behavior trends and strategies throughout the year. The counselor also conducts lessons with students and parents about what constitutes bullying and effective practices to cope when bullying is suspected. It is important for teachers to take students seriously when they have issues with a student or a group of students. Parents have expressed that they appreciate positive calls and letters and this practice should increase from all teachers. We have good turn-out of parents during evening drive by events like Catch Night and Math Night. Parents currently have the opportunity to participate in the parent survey. We have maintained a strong social media following. Our Facebook and website are updated regularly. As a campus we have a community partner in education, CRCU, who donates to campus needs and desires to be more visible on our campus in future years with volunteering. We have parents on some committees, but most are parents of our students. Our PTO is slowly becoming stronger. As a campus, we have made significant growth in the area of parent communication, especially in the area of virtual communication and social media. We continue to have strong community relationships with our partner in education, first responders, and city entities such as the library. We have a strong PBIS system in place but we need to place a stronger emphasis on positive interactions across the building. Overall our students feel safe, but we need stronger systems on the bus.

Perceptions Strengths

From the summary findings, indicate the specific campus strengths that have been identified:

- Fostering student relationships
- Safe and inclusive environment
- PBIS
- Parent Communication

Priority Problem Statements

Problem Statement 1: Students are struggling with critical thinking skills.

Root Cause 1: Teacher need to question students in a way to intentionally facilitate students' critical thinking and allow for higher levels of student talk. The level of student engagement may be lower due to outside causes such as lack of sleep, issues at home, or too many extracurricular activities.

Problem Statement 1 Areas: Student Learning

Problem Statement 3: On a regular basis, our students struggle with critical thinking and strategic compliance/true engagement. While, overall, our campus reaches levels of ritual compliance, we want our students to take on accountability for their own learning. At a true engagement and strategic compliance level, our students will set success goals and be invested in their own learning.

Root Cause 3: We are working at a campus and district level to try and find the root cause of our problem statement. We have tried using internal and instructional rounds to gather data and support our staff. Sometimes our teachers and students are trained in best practices, however, our high mobility rate keeps us from reaching specific goals.

Problem Statement 3 Areas: School Processes & Programs

Problem Statement 2: Campus special education scores are at least 10% lower than the district or state on STAAR in all subjects.

Root Cause 2: Due to high mobility and the number of Special Education students, teachers may not identify the specific needs of special education students in order to maintain steady growth for the student.

Problem Statement 2 Areas: Student Learning
