Accommodating Children with Special Dietary Needs

Distribution of Responsibility

PARENTS

- Provide a physician's statement to the school nurse, making sure that it includes all required information as listed on page 1.
- Provide updated physician's orders as necessary. Give the school nurse a written statement signed by the physician when accommodations are no longer needed. Dietary accommodations cannot be changed prior to receiving updated documentation from the physician.
- Work with the school nurse and/or Registered Dietitian to review and return modified menus as soon as possible.
 - *NOTE: Modified menus will not be implemented until approval is received.*
- **Physician's diet orders should be renewed every school year to assure that the student's needs are met as accurately as possible. If possible, please provide an updated physician's statement to the school nurse during the summer, prior to the beginning of school.**

- What we are unable to do:

 - Provide fruit juice as a milk substitute
