

GCCISD
GIFTED/TALENTED IDENTIFICATION
1st-11th Grade Students

How do I refer my student for the GT Program in GCCISD?

- Parents/Guardians, GCCISD staff, and others may refer a 1st-11th grade student for the GT identification process by completing **an online referral during the fall semester beginning in October**. The GT referral link will be posted on the GCCISD website and the campus website. For more information, contact the campus GT Contact.
- All students who are referred for GT must have a teacher and a parent referral submitted. Parents must give permission for a student to participate in the GT identification process using the online referral. Parent permission is granted by completing and submitting the online referral.
- Students with a completed referral will participate in the GT assessment process during the spring semester.
- Any student who enrolls in GCCISD after the fall deadline can contact the Department of Advanced Academics for a GT referral.
- The GCCISD GT Identification Committee will review all assessment data to determine which students meet criteria for the GT Program. GT students are taught by a teacher who has completed 30 hours of GT training.
- GT assessment results will be mailed to parents once testing is complete. Students identified for the GCCISD GT Program will begin GT Services the following semester, pending parent permission.
- Parents/Guardians may appeal the decision of the GT Identification Committee by contacting the Department of Advanced Academics within 10 working days of the date on the notification letter.

For additional information, refer to the GCCISD Gifted & Talented Program District Handbook
