Howdy, friends!

On behalf of the Goose Creek CISD Education Foundation Board, I am thrilled to welcome you to an event that is sure to knock you out of your boots. This year, the foundation is excited to host a benefit concert starring Texas' own Pat Green in our own backyard! For the first time in several years, this incredible fundraising event is right here in Baytown. We are so excited you have decided to join us for this special evening, and we thank you for your dedication and support of the foundation.

As you all know, GCCISD administrators and educators go above and beyond to offer an excellent education to all students in Goose Creek. The reality is there is just not enough state funding for all of the wonderful opportunities and projects that these educators want to provide for our students. That's where the foundation steps in.

Since the beginning of the foundation in 2009, the board has given away nearly \$2 million dollars in innovative grants to teachers in the district. That number amounts to hundreds of grants that ultimately benefit thousands of Goose Creek students. WOW! We are pleased to say we have awarded grants representing every facet of the educational process, including STEM projects, fine arts designs, special programs additions, language arts plans, and physical education activities. Every dollar awarded has made quite the impact on GCCISD students. Our hope is that these grants ignite their young minds and help them all have a brighter and more successful future.

Ashley Shibley
President

Even though we have given out many grants, our job and mission will never be complete. Each year, we have to get even more creative in order to raise the funds to help these students in our growing district. We have our work cut out for us, which is why we are so grateful for our longstanding community donors as well as for those of you who have just joined our efforts. Thank you for believing in our mission, and thank you for loving and supporting the amazing students and educators of GCCISD.

The board and I cannot wait to celebrate the evening with you as we throw on our cowboy boots and return to our Goose Creek roots! We look forward to your continued support throughout the years to come. Now, it's time to two-step the night away!

Ashley Shibley
Foundation President

Thank you!

About the Foundation

The Goose Creek Education Foundation is in its 14th year of supporting educators and enhancing the student experience in the classrooms of a district that services many highly-economically disadvantaged families.

But thanks to the Foundation, the district is provided additional resources to enrich teaching, inspire learning and provide opportunities for excellence in education for all students.

Since its inception in 2009, the Foundation has awarded 781 innovative teaching grants to more than 1,200 teachers to enhance the curriculum for their students.

The impact of these grants is more than just a monetary contribution to a classroom; these grants inspire children to the world of learning in new ways. Not every child learns the same so the educators use these funds to find creative ways to truly reach every single student in a way that will help them find success.

Every penny in the classroom goes a long way to building a new future for these children.

The Foundation is also integral to highlighting the impact teachers make on the lives of their students through the Students Choice Awards, where teachers are nominated by high school graduating seniors as they describe how many of them changed the trajectory of their lives.

Nearly 210 teachers received this honor by the Foundation.

The contributions to the Foundation also come from educators themselves through an annual "Get On the Bus" campaign. It goes to show that everyone involved is committed to enriching the hearts and minds of our children.

Together, we will build stronger classrooms and a brighter future for Baytown and beyond.
